- The number of mobile and portable handset in operation for the above agencies are as follows: Hand held units – 121 Mobile units – 397
- 2. The area of operation for these units are Statewide (Tennessee)
- 3. The number of base station: 0
- 4. Point of Contact:

John Johnson Radio System Analyst TEMA 3041 Sidco Drive Nashville, TN 37204 (615) 741 – 3826 Voice (615) 741 – 6027 Fax jjohnson@tnema.org The above numbers are the radio units' purchase for usage on both 700 MHz spectrum as well as the 800 MHz spectrum, as dual band radios. The State is in the beginning process of building out a statewide 700 / 800 MHz radio system and has purchased the above units to be compatible with a P25 700 / 800 MHz radio system. In the interim, these radios can operate on the State License channels, the 700 MHz Interoperability channels, and the itinerate low power channels for which the State holds a 700 MHz license, all in the simplex mode for on-scene tactical operation and car to car operations.

So by this letter, we certify that this information is accurate, true, complete, correct, and made in good faith.

Respectfully:

John Johnson

Radio System Analyst
